**Subject:** Microsoft Settlement

The settlement reached with Microsoft, while it represents an unnecessary and dangerous incursion into the marketplace, is much more fair than the actions that could have been taken. I use Microsoft's products and respect that company's competence in its field.

Therefore, my wife and I are very much in favor of the current settlement (the Tunney Act) and wish to see it completed and gotten out of the way so this company and others like it can get on with business.
